

Control your condition Don't let it control you

A FREE course for patients with a long-term health condition

- ⊕ Do you want to manage your condition better?
- ⊕ Do you want to improve your health and wellbeing?
- ⊕ Do you want to feel more confident and in control of your health condition?

What is Self Management for Life?

Our free course is for patients living with one or more long-term health conditions. The self-management programme will give you practical solutions, tools and techniques so that you can better manage your condition on a daily basis.

How does it work?

The courses are led by experienced facilitators, who often have first-hand experience of what it is like to live with a long-term condition or have experience of actively supporting people to self manage. The courses are run in the community over a number of weeks with each session lasting three hours.

Self Management for Life

- ✓ **3 Weekly Sessions**
- ✓ **3 Hours Per Session**
- ✓ **Refreshments Provided**
- ✓ **Venues near you**
- ✓ **Covers any long-term condition**

Self-Management can help you:

- Feel more confident and in control of your health condition
- Understand and better manage your condition
- Cope with daily challenges
- Reduce stress and improve quality of life
- Improve physical symptoms and overall health
- Set health goals

“I feel better in myself and more able to cope with life. The course tutors were helpful without being condescending”
